1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 8,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations, and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

Amazon

Founded in 1994 and headquartered in Seattle, Washington, Amazon employs more than 100,000 worldwide. Their mission is “to be Earth’s most customer-centric company where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.”

Since 1995, Amazon has significantly expanded its product selection, international retail websites, and worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Berkley Alternative Markets Tech

At Berkley Alternative Markets Tech, we simplify complex business problems. And, since we’re in the insurance industry, we have no shortage of complexities to keep us busy.

We started as a small group of technologists with a passion to make workers compensation insurance better. Today we work with a talented team of comp experts who run five different insurance brands.

But we’re not your average Technology shop. Our value proposition is our capacity to care deeply about the products we’re building and convert that passion into business results.

We’re in the business of debating ideas, learning from mistakes, and always asking why. We try to pick the right problems to solve and the best ways to solve them.

Our culture focuses on key personal attributes, including:

? Extreme ownership – Making decisions and pushing our products forward
? Creating relationships – Finding the power in building good relationships and consensus
? Leading business change – Staying engaged and delivering to completion while understanding customers’ perspective
? Asking why and saying no – Figuring out the right problem to solve next and gaining a full understanding
? Creating value and failing often – Learn, grow, repeat
? Energizing others – Leveraging boundless energy to bring passion and meaning to our work

As we grow our team, we’re looking for intelligent, passionate people who want to help us transform complication into simplicity.

Commercial insurance is too complex. Help us make it better.

About Block.one LLC

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

About EOS.IO

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today’s banking world is at the forefront of technological advances. At Deutsche Bank you’ll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you’ll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such
as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

**Eastman Chemical**

Eastman is a global specialty materials company that produces a broad range of products found in items people use every day. With the purpose of enhancing the quality of life in a material way, Eastman works with customers to deliver innovative products and solutions while maintaining a commitment to safety and sustainability. The company’s innovation-driven growth model takes advantage of world-class technology platforms, deep customer engagement, and differentiated application development to grow its leading positions in attractive end-markets such as transportation, building and construction, and consumables. As a globally inclusive and diverse company, Eastman employs approximately 14,500 people around the world and serves customers in more than 100 countries. The company had 2018 revenues of approximately $10 billion and is headquartered in Kingsport, Tennessee, USA.

**Einstein Technologies**

Einstein Technologies, Inc. (ETI) was founded in 2012 and is dedicated to software engineering, systems engineering and cyber security. To stand behind this commitment we are constantly investing our time and resources into coming up with the best ways to develop these skills, the best tools to assist us, mentors to provide the guidance, and the best methods and processes to perform them.

All businesses are aware they must provide a value proposition for their customers. Einstein Technologies further recognizes that this value is greatly dependent upon its employees and as a business we must provide a value proposition to our employees as well. To stand
behind this, Einstein Technologies is always looking to enable the growth of our employees such as growth in skill levels, responsibilities and their personal value.

TMA

Our Mission:

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.

We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to
the customer is unassailable.

We’re at war with proprietary solutions that narrow our customers’ options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is headquartered in Chantilly, VA and was founded in 1993. TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and generous Total Rewards package which includes:

Competitive base pay
Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18% of this amount automatically becomes an employer contribution to your TMA-defined retirement plan. The remaining amount, or 30% of your base pay, can be used for medical expenses, paid time off, additional retirement contributions or additional taxable income.

TMA is committed to the welfare and success of our employees; we strive to ensure that our culture, work products, and partnerships represent our Core Values of: Innovation, Collaboration, Integrity, and Commitment.

Come grow with us. Learn more at http://tmamission.com/
