Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 6,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations, and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

**Amazon**

Founded in 1994 and headquartered in Seattle, Washington, Amazon employs more than 100,000 worldwide. Their mission is “to be Earth’s most customer-centric company where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.”

Since 1995, Amazon has significantly expanded its product selection, international retail websites, and worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Deutsche Bank

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today’s banking world is at the forefront of technological advances. At Deutsche Bank you’ll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you’ll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money
Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

**Eastman Chemical**

Eastman is a global specialty chemical company that produces a broad range of products found in items people use every day. With a portfolio of specialty businesses, Eastman works with customers to deliver innovative products and solutions while maintaining a commitment to safety and sustainability. Its market-driven approaches take advantage of world-class technology platforms and leading positions in attractive end-markets such as transportation, building and construction, and consumables. Eastman focuses on creating consistent, superior value for all stakeholders. As a globally diverse company, Eastman serves customers in approximately 100 countries and had 2014 revenues of approximately $9.5 billion. The company is headquartered in Kingsport, Tennessee, USA and employs approximately 15,000 people around the world. For more information, visit www.eastman.com.

(Company information from Summer 2016)

**Einstein Technologies**

Einstein Technologies, Inc. (ETI) was founded in 2012 and is dedicated to software engineering, systems engineering and information security. To stand behind this commitment we are constantly investing our time and resources into coming up with the best ways to develop these skills, the best tools to assist us, and the best methods and processes to perform them.

All businesses are aware they must provide a value
proposition for their customers. Einstein Technologies further recognizes that this value is greatly dependent upon its employees and as a business we must provide a value proposition to our employees as well. To stand behind this, Einstein Technologies is always looking to enable the growth of our employees such as growth in skill levels, responsibilities and their personal value.

Innovative Defense Technologies

IDT is the industry leader in providing Automated Testing Solutions to the Federal Government for complex software systems with critical performance requirements. We specialize in providing solutions beginning with a strategy tailored to each customer's specific needs then using our Automated Test and Re-Test (ATRT) technology to support automation throughout the entire lifecycle from software component testing, to system integration, to system testing and independent analysis of the results. IDT's core competencies are software test automation, automation strategies, software design and production, virtualization, automated Interface Definition Language (IDL) to code generation, and automation of test data analysis. IDT has the expertise, strategies, processes and technology to provide an Automated Testing Solution which will accelerate test execution times, expand test coverage and test complexity, and reduce time and cost of software testing, thereby increasing the quality of the software and the speed with which it is delivered to the user. IDT developed ATRT under a U.S. Navy Small Business Innovation Research topic and has been awarded multiple tasks on SBIR Phase 3 contract. Examples of successes include: increased number of tactical targets tested in combat system from 1 to 120 within same test time; reduced test resource

**Lutron Electronics**

Lutron Electronics, headquartered in Coopersburg, Pennsylvania, designs and manufactures energy-saving light controls, automated window treatments and appliance modules for both residential and commercial applications. Its innovative, intuitive products can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer, making them an eco-friendly addition to the home and workplace. Founded in 1961, Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately $1 billion in utility costs per year. Lutron manufactures more than 16,000 energy-saving products, sold in more than 100 countries around the world.

Naval Sea Systems Command (NAVSEA)

The Naval Sea Systems Command is comprised of command staff, headquarters directorates, affiliated Program Executive Offices (PEOs) and numerous field activities. Together, we engineer, build, buy and maintain ships, submarines and combat systems that meet the Fleet's current and future operational requirements.

Naval Sea Systems Command (NAVSEA) is the largest of the Navy's five system commands. With a fiscal year budget of nearly $30 billion, NAVSEA accounts for one quarter of the Navy's entire budget.

With a force of 74,000 civilian, military and contract support personnel, NAVSEA engineers, builds, buys and maintains the Navy's ships and submarines and their combat systems.

To accomplish this, NAVSEA manages 150 acquisition programs and manages foreign military sales cases that include billions of dollars in annual military sales to partner nations.

The origin of NAVSEA dates to 1794, when Commodore John Barry was charged to oversee the construction of a 44-gun frigate and ensure that all business "harmonized and conformed" to the public's interest.

Today, the NAVSEA organization has 33 activities in 16 states. NAVSEA strives to be an efficient provider of defense resources for the nation, and it plays an important role in the Navy Enterprise. As a Provider Command, it has the responsibility of directing resource sponsors into the proper mix of manpower and resources to properly equip the fleet.

NAVSEA has the further responsibility of establishing and
enforcing technical authority in combat system design and operation. These technical standards use the organization's technical expertise to ensure systems are engineered effectively, and that they operate safely and reliably.

**Next Century Corporation**

Next Century Corporation, which is 100% employee owned, was founded in response to the events of 9/11/2001. We are passionately committed to making a significant, tangible, positive difference in the security and well-being of our country and our allies. We pursue this bold and worthy mission through the innovative use and application of technology in ways that significantly enhance the ability of our customers to directly or indirectly:

* Save lives
* Protect our country and our allies
* Enhance America's competitiveness in the global marketplace

Toward that end, we are focused on the development of a
new class of solutions that we refer to as Strategic Insight™ solutions. These solutions integrate situational awareness, at-a-glance analysis, decision support, collaboration, as well as other core capabilities, to provide information to decision makers in ways that are highly intuitive and actionable.

Next Century Corporation recruits world class technical talent and industry expertise in system concept development, rapid prototyping, software engineering, systems integration, and project leadership. We pride ourselves on our proven ability to apply small, elite technical teams focused on the end user solving problems quickly and effectively.

Perfect Sense

Founded in 2008 by technology executives David Gang and Lisa Beaudoin, Perfect Sense is a full-service product company that capitalizes on its enterprise digital application development platform, Brightspot, to drive innovations in web and mobile development for corporations worldwide. Perfect Sense originally created and now actively supports the Brightspot platform, which powers dynamic and highly engaging consumer experiences.

Such leading corporations as Coca-Cola Company, Walmart, Univision, US News and World Report, Scripps Networks Interactive, Special Olympics, and many more are deploying Brightspot’s platform to materially change the way they do business online. Our partners benefit significantly from having increased flexibility as business requirements change, the ability to launch new sites and make updates more quickly, and fewer resource requirements to manage their digital initiatives. As Brightspot’s adoption rate increases, our partners continue to drive valuable enhancements that benefit everyone.

Our capabilities include product strategy and development, experience and visual design, multi-platform software development, content services, SEO analysis, and 24x7 hosting and operations. Our expertise enables us to deliver integrated web systems for our partners, including innovative websites, publishing platforms, online revenue programs, and metrics dashboards that drive brand awareness, expand capabilities, improve performance, and build relationships between publishers and users.

Perfect Sense offers competitive salary and benefits,
including health and dental insurance, life insurance, 401k with employer match and 3 weeks vacation.

Qualcomm

Qualcomm is creating breakthroughs in mobile technology that will help the future arrive faster. The technologies we create help connect people around the world, improve education, transform healthcare and enhance the lives of all who use it. Billions, maybe trillions of times a day...that’s how often people around the world touch something made better or even possible by Qualcomm. It could be the smartphone in your pocket, the tablet on your coffee table, that wireless modem in your briefcase... it could even be that navigation system in your car or that action camera strapped to your chest.

Qualcomm is a FORTUNE 500® company and a global leader in developing and delivering next-generation wireless technology. Headquartered in San Diego, California, Qualcomm partners with network operators, device and infrastructure manufacturers, application developers and content providers around the world to improve people’s lives through wireless communications. Through the corporate values of Innovation, Execution and Partnership, Qualcomm is spearheading the evolution and growth of 3G wireless with 7,000+ patents and patent applications for CDMA, WCDMA and related technologies.

We’ve been called dreamers, inventors, rebels, risk takers, pioneers and geeks. We embrace those labels because in many ways, they’re true. We dream big. We invent bigger. And most importantly, we often do what many thought was impossible.
So, if you can’t wait for the future to arrive, we can’t wait to talk to you.

RDA Corporation

Business Problems – Solved with Business Thinking and Technology Expertise

We help our clients leverage technology to get their businesses moving. But with us, it’s not just about the technology. Our team has the experience to understand that successful engagements first require the time and thinking to understand clients’ business needs, and only then do you map appropriate technology solutions. It’s this approach that helps us to solve our clients’ complex business challenges that can often cost companies precious time, resources, and money.

With a focus on custom application development including .NET, Sharepoint, enterprise search, business intelligence, cloud and mobile applications, RDA’s experienced team takes the time to understand our clients’ business needs and offers several ways to work together, including on site, field teams, and in our corporate development center.

Our corporate office and development center are located in Baltimore with additional offices in Atlanta, Charlotte, Philadelphia, Reston, Seattle/Bellevue and Washington, D.C. RDA provides complete consulting, planning, and...
development services for clients in all areas of industry. RDA – Technology Expertise. Business Thinking.

TMA

Our Mission:

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.

We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to the customer is unassailable.

We’re at war with proprietary solutions that narrow our customers’ options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is an employee-owned company, headquartered in Chantilly, VA. Founded in 1993, TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and generous Total Rewards package which includes:

- Competitive base pay
- Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18% of this amount automatically becomes an employer contribution to your TMA-defined retirement plan. The remaining amount, or 30% of your base pay, can be used for medical expenses, paid time off, additional retirement contributions or additional taxable income.

TMA is committed to the welfare and success of our employees; we strive to ensure that our culture, work products, and partnerships represent our Core Values of: Innovation, Collaboration, Integrity, and Commitment.

Come grow with us. Learn more at http://tmamission.com/

Tridium

Thank you for your interest in a career with Tridium. A career at Tridium offers exciting opportunities to become part of a team that is committed to excellence. As the pioneer of connectivity, communications, integration and interoperability technology, Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions.

Technology from Tridium increases the functionality and value of smart devices and systems and enables the intelligent convergence of devices, systems, and networks. Our technology and applications have fundamentally changed the way devices and systems connect, integrate and interoperate with each other and the enterprise and enable collaboration and communication between the enterprise and edge assets.
Our technologies, the Niagara and Sedona Frameworks, are used in intelligent building control, facility management, industrial automation, medical equipment, physical security, and energy information systems, telecommunications, M2M and smart services.

In less than four years it is estimated that there will be over 22 billion devices connected to the Internet and our technologies are playing an instrumental part in driving this explosive growth.

To help us meet the demand, we are looking for people driven by an entrepreneurial spirit and a desire to contribute, be challenged and grow. Our people make Tridium a special company and are a key competitive advantage.

Tridium offers excellent benefits including paid vacation, medical and dental coverage, 401(k) and life insurance coverage. Currently, we are looking for people to fill the following key positions.

Ventera Corporation

Ventera delivers innovative business and technology solutions to unique customer challenges, to help our clients achieve meaningful results. Ventera empowers the success of many of the largest government agencies, telecommunications companies, and financial services firms in the world. Our business begins and ends with a deep understanding of our customers and their unique challenges and opportunities, and our relentless commitment to customer success. Rather than just implementing systems, Ventera and our exceptional professionals leverage their deep technical, functional and domain knowledge to apply technology as a means to achieve our most important end goal: Helping customers achieve meaningful results.

Ventera recruits exceptional consultants who want to advance their career while delivering leading edge, innovative solutions for our customers. Outside of our normal projects, you’ll find our team engaged in different initiatives, such as contributing to our Technology Innovation Council, discussing the latest tech trends within our Communities of Practice, or planning our next hackathon, to name a few.

**Visa**

Imagine working for one of the pioneers in the payment technology space. The kind of company that’s been setting the bar for the way people pay and get paid for more than 50 years, and continues to innovate on a global scale. Now imagine that company is less than 10,000 employees worldwide, small enough that you’ll actually have an impact and do some amazing things. Sounds pretty awesome. Well, that company exists and it’s Visa.

Yep, Visa.

Imagine, in a single day, the diversity of transactions that Visa manages – from gaming enthusiasts who buy virtual goods to advance a level, to a small business merchant launching their first ecommerce business to a large consumer brand hitting their largest single-day sale. Now multiply transactions and interactions like that by millions on a global scale – that's Visa. It is a multi-billion dollar market that has experienced year over year growth!

Wells Fargo Capital Markets Technology

Company Overview
Wells Fargo & Company (NYSE: WFC) is a diversified, community-based financial services company with $1.9 trillion in assets. Founded in 1852, Wells Fargo provides banking, insurance, investments, mortgage, and consumer and commercial financial services through more than 8,600 locations, 13,000 ATMs, online (wellsfargo.com), and mobile devices.

We’re headquartered in San Francisco, but we’re decentralized so every local Wells Fargo location is a headquarters for satisfying our customers’ financial needs and helping them succeed financially. We do business with 70 million customers and one in three U.S. households. Wells Fargo has approximately 273,000 team members in 42 countries and territories across our more than 90 businesses. At the end of first quarter 2017, Wells Fargo ranked third in assets among U.S. banks.

Wholesale Banking provides financial solutions to businesses across the United States and globally, with annual sales generally in excess of $5 million. It has 10 major business lines, including: Business Banking, Middle Market Banking, Government and Institutional Banking, Corporate Banking, Commercial Real Estate, Financial Institutions Group, Wells Fargo Commercial Capital, Wells Fargo Insurance, Wells Fargo Securities, and Principal Investments. It also has two support groups in Wholesale Credit Risk and the Wholesale Chief Operating Office.

Our vision: “We want to satisfy all our customers’ financial needs and help them succeed financially.”

Wells Fargo is an Affirmative Action and Equal Opportunity Employer, Minority/Female/Disabled/Veteran/Gender Identity/Sexual Orientation

WillowTree, Inc.

Founded in 2008, WillowTree is a mobile design and development agency whose mission is to bring together a team of smart, motivated people who take pride in their work and strive to be the best in mobile. We foster a collaborative environment that focuses on continuous learning and unlimited opportunities to have a big impact; and, of course, we also ship lots of code!

At WillowTree, we work with companies like Zappos, PepsiCo, HBO, and Mattel to solve real-world UX strategy, design, and technical problems. There's always something new and exciting to work on, and the results of our efforts get shipped to users' devices every day.

Zeta Associates, Inc.

Zeta Associates Incorporated, founded in 1984, is a leading provider to the Intelligence and Defense communities of complex communications signals collection and processing systems. Our software-based, DSP solutions are deployed worldwide in both the national and tactical arenas. We excel at DSP algorithm development and prototyping, systems integration, hardware integration and development, and field deployment.

Zeta has earned a stellar reputation by providing innovative solutions to the most challenging collection and processing problems posed by the rapidly evolving communications field. Our success is due to an outstanding staff of over 350 highly experienced engineers, scientists, software developers, and technical personnel. The company provides a stimulating, non-bureaucratic work environment that allows us to remain mission focused and efficient. Significant resources have been dedicated to extensive laboratory, computer, and
technology support.

Our numerous and significant contributions far exceed what would be expected from a company our size. In our projects we emphasize in-depth understanding of the problems and the associated real-world operational considerations. Our performance trademark is to solve a problem with fewer people, in less time, and in more depth.
