1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 8,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations, and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

Amazon

Founded in 1994 and headquartered in Seattle, Washington, Amazon employs more than 100,000 worldwide. Their mission is “to be Earth’s most customer-centric company where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.”

Since 1995, Amazon has significantly expanded its product selection, international retail websites, and worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple
Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Block.one

About Block.one LLC

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

About EOS.IO

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

Headquarters 1701 Kraft Drive Blacksburg, VA 24060

Bloomberg LP

Bloomberg's software engineers are responsible for creating the world's premiere source for real-time and historical market data and analytics. Engineers are given the responsibility to define, architect, build, and deploy complete systems that anticipate and fulfill our clients' needs. Our agile development cycle allows us to roll out new software seven days a week. Small teams and access to managers creates a collaborative and innovative work environment. Engineers are given the opportunity to be creative and the impact of their contribution is highly visible throughout the company and to clients.

We are looking for software engineers who are interested in designing high-impact solutions to help our customers optimize complex workflows, efficiently manipulate large datasets, and make quick, intuitive decisions.

CapTech

CapTech is a national IT management consulting firm that bridges the gap between business and technology. We partner with some of the world’s most successful companies to design, develop, and manage technical and digital solutions that delight customers, drive insights, and meet strategic objectives. Headquartered in Richmond, Virginia, CapTech also has locations in Atlanta, Baltimore, Charlotte, Chicago, Columbus (Ohio), Denver, Orlando, Philadelphia, San Francisco, and Washington D.C.

We bring expert consultants to every engagement to develop a deep understanding of the goals and assets unique to each client. We tailor custom solutions to maximize the impact of our clients’ investment.

CapTech’s core values are where we hang our hat and our dynamic culture promotes a passion for technology while cultivating an environment of mutual respect and a little bit of fun. We recently ranked #6 in Consulting Magazines ‘Best Firms to Work For’. Additionally, Forbes.com has ranked CapTech’s Internship Program #4 in the country.

You are more than just a number at CapTech. Our consultants get the “big firm” experience without getting lost in the crowd. The driving force behind our success is the close relationship that we develop with our clients, getting to know their businesses and understanding the vision that guides them. We promote the work hard, play hard culture and strive to build a sense of camaraderie and belonging amongst our employees. Our people are our greatest assets, and we do everything we can to support their professional and personal growth.

Deutsche Bank

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today’s banking world is at the forefront of technological
advances. At Deutsche Bank you'll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you'll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

Perfect Sense

Founded in 2008, Perfect Sense is a visionary technology company that empowers the art of digital possibility through Brightspot® a content management and distribution engine built for high-volume publishers, brand storytellers, and portfolio content creators.

Such leading corporations as Coca-Cola Company, Walmart, Univision, US News and World Report, Scripps Networks Interactive, Special Olympics, and many more are deploying Brightspot’s platform to materially change the way they do business online. Our partners benefit significantly from having increased flexibility as business requirements change, the ability to launch new sites and make updates more quickly, and fewer resource requirements to manage their digital initiatives. As Brightspot’s adoption rate increases, our partners continue to drive valuable enhancements that benefit everyone.

Our capabilities include product strategy and development, experience and visual design, multi-platform software development, content services, SEO analysis, and 24x7 hosting and operations. Our expertise enables us to deliver integrated web systems for our partners, including innovative websites, publishing platforms, online revenue programs, and metrics dashboards that drive brand awareness, expand capabilities, improve performance, and build relationships between publishers and users.

Perfect Sense offers competitive salary and benefits, including health and dental insurance, life insurance, 401k with employer match and 3 weeks vacation.

Progeny Systems Corporation

Since 1995, Progeny Systems' mission is to be a trusted provider of innovative, cost-effective technical solutions and quality products while maintaining positive relationships with our customers, vendors, and employees. Progeny Systems is a privately-held, high-tech small business focusing on software and hardware system integration, computer-vision solutions, cutting-edge research and development, and manufacturing. We provide premium systems, services, and products for the Department of Defense, government agencies and commercial clients.

As a small business, Progeny Systems is a participant in the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. These programs complement Progeny's ability to leverage flexibility, rapid turnaround, customer responsiveness, and encourage an environment for experimental research.

Progeny maintains more than 14 offices nationwide that are strategically located to better serve our customers.

Progeny has provided highly-complex products/programs to the United States Government in collaboration with the following agencies, among others:

• Defense Advanced Research Projects Agency (DARPA)
• National Aeronautics & Space Administration (NASA)
• United States Air Force
• United States Army
• United States Navy

Progeny Systems offers a full array of computing expertise, laboratories, and engineering talent to support the design, development, testing and integration of leading-edge technology solutions. We have an outstanding portfolio of solutions for complex problems for the U.S. defense that include the toughest high-tech challenges. Today, our high-performance products can be found throughout the Naval fleet and commercial markets.

Progeny’s business solutions focus on:

Defense Systems and Integration
• Aviation & Maritime Surveillance Systems
