Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 6,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations, and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

Asurion

Simply put, Asurion helps people stay connected. As the global leader of connected life services, we provide over 290 million consumers around the world with simple, intuitive technology advice to help them get the most from their devices; support to fix their issues and connectivity crisis, and device protection to ensure they receive a replacement or repair. When a product is missing or simply doesn't work properly, Asurion's 17,000 employees are focused on solving the problem with people and processes operating 24 hours a day, seven days a week, speaking six languages, and working across any device, platform, or provider. By partnering with leading retailers, mobile carriers and pay-tv providers, Asurion helps customers enhance their lives through their technology. For more information about Asurion, please visit www.asurion.com.

Bloomberg

Bloomberg's software engineers are responsible for creating the world's premiere source for real-time and historical market data and analytics. Engineers are given the responsibility to define, architect, build, and deploy complete systems that anticipate and fulfill our clients' needs. Our agile development cycle allows us to roll out new software seven days a week. Small teams and access to managers creates a collaborative and innovative work environment. Engineers are given the opportunity to be creative and the impact of their contribution is highly visible throughout the company and to clients.

We are looking for software engineers who are interested in designing high-impact solutions to help our customers optimize complex workflows, efficiently manipulate large datasets, and make quick, intuitive decisions.
Booz Allen Hamilton

Booz Allen Hamilton has been at the forefront of strategy and technology consulting for more than 100 years. Providing a broad range of services in software development, systems development, systems engineering, cyber security, data science, cloud computing and all aspects of technology, Booz Allen is committed to delivering results that endure. Our ability to help clients solve their most challenging problems and achieve success in their most critical missions hinges on our people. As a Booz Allen consultant, you’ll work within teams that deliver results to our clients in areas such as: Biometrics/Identity Management; Cloud Computing; Cybersecurity; Enterprise Architecture; Intelligence and Operations Analysis; Data Science, Cloud Computing, Network/Infrastructure Engineering, Reverse Engineering; Service-Oriented Architecture and Wargaming. We are actively seeking candidates with the following majors for internships and full-time employment opportunities:

- Computer Engineering

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today’s banking world is at the forefront of technological advances. At Deutsche Bank you’ll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you’ll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

Genworth Financial

Genworth helps millions of people around the world secure their financial lives, families and futures by delivering on our promises. Our dedicated Information Technology teams are critical to these promises—employing the technology necessary to deliver simplified, fast and cost-effective service solutions to both our customers and distribution partners. At Genworth, Information Technology is not just a department—each of our talented associates is core to the fulfillment of our vision and values. Genworth’s rotational IT Development Program (ITDP) consists of four six-month rotations and two intense IT Boot Camps. ITDPs have the opportunity to design complex business solutions by using agile methodology and project management skills coupled with the technical work needed to develop the solution. Assignments will typically focus on core IT processes in Application Development, Network, Client/Server, Database, Programming Languages, Web Development, Architecture, System Integration, and/or project management. Our 12 week IT internship is essentially one shorter rotation in the ITDP where you will work on one of our in-house IT teams building capabilities for the business.

Hughes Network Systems

Hughes is the world’s leading provider of satellite broadband for home and office, delivering innovative network technologies, managed services, and solutions for enterprises and governments globally. HughesNet® is the #1 high-speed satellite Internet service in the marketplace, with over 930,000 HughesNet subscribers as of Q2 2014 in North America, and offerings to suit every budget. To date, Hughes has manufactured and shipped more than 4 million terminals to customers in over 100 countries, and has consistently maintained a global market share of over 50 percent. Its products employ global standards approved by the TIA, ETSI and ITU organizations, including IPoS/DVB-S2, RSM-A, and GMR-1.

Hughes owns and operates service businesses throughout the United States, Europe, India, and Brazil delivering continent-wide broadband satellite connectivity along with an ever growing range of fully managed solutions and applications to major enterprise customers in virtually every vertical sector, including many of the Fortune 1000. Its technology footprint covers the globe, exceeding 1 million broadband sites operating on more than 20 satellites, including the Ka-band,100+Gbps EchoStar® XVII with Jupiter™ high-throughput technology and the award-winning SPACEWAY® 3 satellite in North America, the world’s first with onboard switching and routing.

Hughes supplies a growing family of authorized service providers, government organizations, and businesses with advanced broadband systems and terminals including satellite Network Operations Centers (NOCs) and
gateways; broadband satellite routers and modems; mobile satellite systems, handhelds and high-speed IP data terminals.

Headquartered outside Washington, D.C., in Germantown, Maryland, USA, Hughes operates sales and support offices worldwide, and is a wholly owned subsidiary of EchoStar Corporation (NASDAQ: SATS), a premier global provider of satellite operations and digital TV solutions.

**Next Century Corporation**

Next Century Corporation, which is 100% employee owned, was founded in response to the events of 9/11/2001. We are passionately committed to making a significant, tangible, positive difference in the security and well-being of our country and our allies. We pursue this bold and worthy mission through the innovative use and application of technology in ways that significantly enhance the ability of our customers to directly or indirectly:

* Save lives
* Protect our country and our allies
* Enhance America’s competitiveness in the global marketplace

Toward that end, we are focused on the development of a new class of solutions that we refer to as Strategic Insight™ solutions. These solutions integrate situational awareness, at-a-glance analysis, decision support, collaboration, as well as other core capabilities, to provide information to decision makers in ways that are highly intuitive and actionable.

Next Century Corporation recruits world class technical talent and industry expertise in system concept development, rapid prototyping, software engineering, systems integration, and project leadership. We pride ourselves on our proven ability to apply small, elite technical teams focused on the end user solving problems quickly and effectively.

Perfect Sense

Founded in 2008 by technology executives David Gang and Lisa Beaudoin, Perfect Sense is a full-service product company that capitalizes on its enterprise digital application development platform, Brightspot, to drive innovations in web and mobile development for corporations worldwide. Perfect Sense originally created and now actively supports the Brightspot platform, which powers dynamic and highly engaging consumer experiences.

Such leading corporations as Coca-Cola Company, Walmart, Univision, US News and World Report, Scripps Networks Interactive, Special Olympics, and many more are deploying Brightspot’s platform to materially change the way they do business online. Our partners benefit significantly from having increased flexibility as business requirements change, the ability to launch new sites and make updates more quickly, and fewer resource requirements to manage their digital initiatives. As Brightspot’s adoption rate increases, our partners continue to drive valuable enhancements that benefit everyone.

Our capabilities include product strategy and development, experience and visual design, multi-platform software development, content services, SEO analysis, and 24x7 hosting and operations. Our expertise enables us to deliver integrated web systems for our partners, including innovative websites, publishing platforms, online revenue programs, and metrics dashboards that drive brand awareness, expand capabilities, improve performance, and build relationships between publishers and users.

Perfect Sense offers competitive salary and benefits, including health and dental insurance, life insurance, 401k with employer match and 3 weeks vacation.

Qualcomm

Qualcomm is creating breakthroughs in mobile
Qualcomm is creating breakthroughs in mobile technology that will help the future arrive faster. The technologies we create help connect people around the world, improve education, transform healthcare and enhance the lives of all who use it. Billions, maybe trillions of times a day...that’s how often people around the world touch something made better or even possible by Qualcomm. It could be the smartphone in your pocket, the tablet on your coffee table, that wireless modem in your briefcase... it could even be that navigation system in your car or that action camera strapped to your chest.

Qualcomm is a FORTUNE 500® company and a global leader in developing and delivering next-generation wireless technology. Headquartered in San Diego, California, Qualcomm partners with network operators, device and infrastructure manufacturers, application developers and content providers around the world to improve people’s lives through wireless communications. Through the corporate values of Innovation, Execution and Partnership, Qualcomm is spearheading the evolution and growth of 3G wireless with 7,000+ patents and patent applications for CDMA, WCDMA and related technologies.

We’ve been called dreamers, inventors, rebels, risk takers, pioneers and geeks. We embrace those labels because in many ways, they’re true. We dream big. We invent bigger. And most importantly, we often do what many thought was impossible.

So, if you can’t wait for the future to arrive, we can’t wait to talk to you.

**RDA Corporation**

**Business Problems – Solved with Business Thinking and Technology Expertise**

We help our clients leverage technology to get their businesses moving. But with us, it’s not just about the technology. Our team has the experience to understand that successful engagements first require the time and thinking to understand clients’ business needs, and only then do you map appropriate technology solutions. It’s this approach that helps us to solve our clients’ complex business challenges that can often cost companies precious time, resources, and money.

With a focus on custom application development including .NET, Sharepoint, enterprise search, business intelligence, cloud and mobile applications, RDA’s experienced team takes the time to understand our clients’ business needs and offers several ways to work together, including on site, field teams, and in our

### SWIFT

Every day, the world's economy sees enormous sums of money change hands. Person to person. Business to business. Nation to nation. At all levels that business is being done, money moves. Securely. Reliably. Round the clock. And, at the heart of it all is SWIFT. A community of over 10,000 financial organizations in 210 countries, linked together by one of the world's most stable and scalable financial messaging systems. SWIFT is how the world exchanges financial information. And you could be part of it.

### Textron

Textron, Inc. is a global, multi-industry company employing roughly 36,000 talented makers, thinkers, creators and doers across countless disciplines. Specializing in the aircraft, defense and intelligence, industrial, and financial industries, we make things that fly, hover, zoom and launch. Things that move people. Protect soldiers. Power industries. We make things that make a real difference in the world.

With exciting brands such as Beechcraft, Bell Helicopter, Cessna, E-Z-GO and others, Textron can offer a rewarding career path and provide diverse experiences within a global company. Because when you join Textron, you don’t just join a Fortune 500 giant. You join a network of more than 20 brands that cut across industries and continents. And you can explore it all—from aviation to defense to industrial and more.

We have internships and co-ops, early career positions, and Leadership Development Program opportunities in disciplines such as Engineering, Supply Chain & Operations, Finance & Accounting, Information Technology, Human Resources, Marketing & Sales, Computer Science, and Management Information Systems.

Join Textron. Make Something Real. Apply now at TEXTRON.COM/CAREERS
The MITRE Corporation

MITRE is a not-for-profit systems engineering firm chartered to work in the public interest, taking on the nation's most difficult and critical challenges—in defense, aviation, enterprise modernization, and national security. We apply our expertise in systems engineering, information technology, operational concepts, and enterprise modernization to address our sponsors' critical needs by managing seven Federally Funded Research and Development Centers that focus on areas including cyber security, emerging technologies, enterprise systems engineering, health transformation, global networking, intelligence, surveillance and reconnaissance.

We seek students with research and analysis skills pursuing Healthcare: Informatics, Policy, Public Health; Computer Engineering, Electrical Engineering, Computer Science, Software or Systems Engineering, Mathematics, Physics or similar degree program with a 3.0/4.0 or better GPA. To find out more or to join our team, visit us at www.mitre.org/careers as we hire co-ops, interns, entry level and mid-level professionals who are ready to make a difference on a national level!

TMA

Our Mission:

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.
We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to the customer is unassailable.

We’re at war with proprietary solutions that narrow our customers’ options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is an employee-owned company, headquartered in Chantilly, VA. Founded in 1993, TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and generous Total Rewards package which includes:

Competitive base pay
Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18% of this amount automatically becomes an employer contribution to your TMA-defined retirement plan. The remaining amount, or 30% of your base pay, can be used for medical expenses, paid time off, additional retirement contributions or additional taxable income.

TMA is committed to the welfare and success of our employees; we strive to ensure that our culture, work products, and partnerships represent our Core Values of: Innovation, Collaboration, Integrity, and Commitment.

Come grow with us. Learn more at http://tmamission.com/

career at Tridium offers exciting opportunities to become part of a team that is committed to excellence. As the pioneer of connectivity, communications, integration and interoperability technology, Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions.

Technology from Tridium increases the functionality and value of smart devices and systems and enables the intelligent convergence of devices, systems, and networks. Our technology and applications have fundamentally changed the way devices and systems connect, integrate and interoperate with each other and the enterprise and enable collaboration and communication between the enterprise and edge assets.

Our technologies, the Niagara and Sedona Frameworks, are used in intelligent building control, facility management, industrial automation, medical equipment, physical security, and energy information systems, telecommunications, M2M and smart services.

In less than four years it is estimated that there will be over 22 billion devices connected to the Internet and our technologies are playing an instrumental part in driving this explosive growth.

To help us meet the demand, we are looking for people driven by an entrepreneurial spirit and a desire to contribute, be challenged and grow. Our people make Tridium a special company and are a key competitive advantage.

Tridium offers excellent benefits including paid vacation, medical and dental coverage, 401(k) and life insurance coverage. Currently, we are looking for people to fill the following key positions.

Visa

Imagine working for one of the pioneers in the payment technology space. The kind of company that’s been setting the bar for the way people pay and get paid for more than 50 years, and continues to innovate on a global scale. Now imagine that company is less than 10,000 employees worldwide, small enough that you’ll actually have an impact and do some amazing things. Sounds pretty awesome. Well, that company exists and it’s Visa.

Yep, Visa.

Imagine, in a single day, the diversity of transactions that Visa manages – from gaming enthusiasts who buy virtual goods to advance a level, to a small business merchant launching their first ecommerce business to a large consumer brand hitting their largest single-day sale. Now multiply transactions and interactions like that by millions on a global scale – that’s Visa. It is a multi-billion dollar market that has experienced year over year growth!
Wells Fargo Capital Markets Technology

Company Overview
Wells Fargo & Company is a diversified financial services company providing banking, insurance, investments, mortgage, and consumer and commercial finance through more than 8,700 stores and more than 12,500 ATMs, and the internet (wellsfargo.com) across North America and internationally. We’re headquartered in San Francisco, but are decentralized so every local Wells Fargo store is a headquarters for satisfying all our customers’ financial needs and helping them succeed financially. One in three households in America does business with Wells Fargo. Wells Fargo has $1.7 trillion in assets and more than 266,000 team members in more than 36 countries across approximately 90 businesses. At the end of the first quarter 2015, Wells Fargo ranked fourth in assets among U.S. banks and was the world’s most valuable bank by market capitalization.

Wholesale Banking provides financial solutions to businesses across the United States and globally, with annual sales generally in excess of $20 million. Products and business segments include Middle Market Commercial Banking, Government and Institutional Banking, Corporate Banking, Commercial Real Estate, Treasury Management, Wells Fargo Capital Finance, Insurance, International, Real Estate Capital Markets, Commercial Mortgage Servicing, Community Lending and Investment, Multifamily Capital, Corporate Trust, Equipment Finance, Wells Fargo Securities, Principal Investments, Asset Backed Finance, and Asset Management.

Wells Fargo Securities (WFS) is comprised of more than 5,000 team members in more than 40 offices across North America, Europe, and Asia. We bring together Wells Fargo’s market-leading businesses in debt and equity underwriting and distribution, investment research and economic insights, interest rate, commodity and equity risk management, structured lending facilities, securitization, prime finance, clearing and fund services. Our relationship-driven business model is focused on delivering capital markets and advisory solutions to middle market, large corporate, institutional, and public entity clients.

Our vision: “We want to satisfy all our customers’ financial needs and help them succeed financially.”

Wells Fargo is an Affirmative Action and Equal Opportunity Employer, Minority/Female/Disabled/Veteran/Gender Identity/Sexual
WillowTree, Inc.

Founded in 2008, WillowTree is a mobile design and development agency whose mission is to bring together a team of smart, motivated people who take pride in their work and strive to be the best in mobile. We foster a collaborative environment that focuses on continuous learning and unlimited opportunities to have a big impact; and, of course, we also ship lots of code!

At WillowTree, we work with companies like Zappos, PepsiCo, HBO, and Mattel to solve real-world UX strategy, design, and technical problems. There's always something new and exciting to work on, and the results of our efforts get shipped to users' devices every day.

Zeta Associates, Inc.

Zeta Associates Incorporated, founded in 1984, is a leading provider to the Intelligence and Defense communities of complex communications signals collection and processing systems. Our software-based, DSP solutions are deployed worldwide in both the national and tactical arenas. We excel at DSP algorithm development and prototyping, systems integration, hardware integration and development, and field deployment.

Zeta has earned a stellar reputation by providing innovative solutions to the most challenging collection and processing problems posed by the rapidly evolving communications field. Our success is due to an outstanding staff of over 350 highly experienced engineers, scientists, software developers, and technical personnel. The company provides a stimulating, non-bureaucratic work environment that allows us to remain mission focused and efficient. Significant resources have been dedicated to extensive laboratory, computer, and technology support.

Our numerous and significant contributions far exceed what would be expected from a company our size. In our
