1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.”

Since 1995, Amazon has significantly expanded its product selection, international retail websites, and worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Block.one

About Block.one LLC

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

About EOS.IO

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

CCRi

CCRi is a Data Science & Software engineering company located in Charlottesville, Virginia. We provide custom software development and innovative awareness solutions to customers in government and private industry. Our customers look to us to solve their hardest problems, and we have a long history of exceeding their expectations. With projects ranging from optimizing the world’s largest container port to predicting future asymmetric warfare events, CCRi has no shortage of exciting projects. We apply numerous machine learning and artificial intelligence techniques to a variety of data sets in order to answer key questions posed by our clients. We then implement these solutions into software systems with a strong focus on scalability, usability, and data visualization.

CCRi offers an engaging and supportive environment. We're interested in continual learning and creative problem solving. Our superlative team includes Data Scientists, Systems Engineers, Mathematicians, Computer Scientists, Statisticians, and more, all of whom bring their diverse backgrounds to solve very difficult problems. Solving fun and challenging problems is in our DNA - we only take on interesting projects, and we love to learn. Our diverse team, naturally has a wide-ranging set of interests - in past winters our holiday gift experiment has produced a 3D printer, Vive, food smoker and kegerator for the homebrew crew. We have a number of bikers who enjoy the indoor storage, maintenance area and available shower. CCRi provides a challenging and fun work environment, competitive pay, generous retirement, and a very flexible vacation policy.

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today's banking world is at the forefront of technological advances. At Deutsche Bank you'll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you'll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

Eastman Chemical

Eastman is a global specialty chemical company that produces a broad range of products found in items people use every day. With a portfolio of specialty businesses, Eastman works with customers to deliver innovative products and solutions while maintaining a commitment to safety and sustainability. Its market-driven approaches take advantage of world-class technology platforms and leading positions in attractive end-markets such as transportation, building and construction, and consumables. Eastman focuses on creating consistent, superior value for all stakeholders. As a globally diverse company, Eastman serves customers in approximately 100 countries and had 2014 revenues of approximately $9.5 billion. The company is headquartered in Kingsport, Tennessee, USA and employs approximately 15,000 people around the world. For more information, visit www.eastman.com.

(Company information from Summer 2016)

Epic

As a worldwide leader in the development of software for healthcare organizations, Epic is driving change for an entire industry - and not just any industry - one that impacts the quality of life for everyone. Our software is currently used to help care for 180 million people in the US alone.

We work with some of the nation’s most respected healthcare organizations and leading research institutions to develop, implement and support software to reduce medical errors, improve screening for diseases, and increase the quality of patient care.

Founded in 1979, Epic is private and employee-owned. We've grown to a company of nearly 8,000 intelligent, motivated, and principled people who are dedicated to making a positive impact on the healthcare industry.
Facebook, Inc.

Founded in 2004, Facebook’s mission is to give people the power to share and make the world more open and connected. People use Facebook to stay connected with friends and family, to discover what’s going on in the world, and to share and express what matters to them.

Fannie Mae

Fannie Mae is a leader in providing housing finance for homebuyers and renters in the United States. We serve the people who house America. Together with our partners, we make sure that homeowners, homebuyers, and renters across the country have access to affordable financing opportunities.

Fannie Mae aspires to be America’s most valued housing partner. We provide our customers with products and tools they need to enable mortgage lending in the 21st century. We provide technology and risk tools to help our customers advance their businesses. We listen to and support our customers to make the mortgage process more efficient and effective.

We continually work to improve the way we operate because we want to make the housing finance system safer and more effective for our company, our customers, homeowners, homebuyers, renters, and for America.

Ford Motor Company

At Ford, we go further to make our cars better, our employees happier and our planet a better place to be. Learn more about the work that makes Ford a company that we’re proud to be a part of.
GEICO

GEICO is the nation's second-largest and one of the fastest-growing auto insurers in the country. Our company is a household name known for its clever marketing, low rates and outstanding customer service. As a wholly owned subsidiary of Berkshire Hathaway, we've been consistently rated superior for financial strength.

GEICO is more than just insurance. Virtually all of our management team began at the entry-level and worked their way up, including our CEO! We offer great careers, where many people join our team soon after college.

Our associates are as diverse as their successes. More than 3,000 associates work at GEICO's corporate headquarters in Chevy Chase, MD. Here, we offer unique opportunities in actuary, software development, business IT and analytics, information security and infrastructure, digital design and more! If you are someone who likes to work with people, work with innovative technologies, analyze numbers, and be challenged in a fast-paced environment, GEICO offers a great amount of opportunity for you to make an impact.

IDT is the industry leader in providing Automated Testing Solutions to the Federal Government for complex software systems with critical performance requirements. We specialize in providing solutions beginning with a strategy tailored to each customer’s specific needs then using our Automated Test and Re-Test (ATRT) technology to support automation throughout the entire lifecycle from software component testing, to system integration, to system testing and independent analysis of the results. IDT’s core competencies are software test automation, automation strategies, software design and production, virtualization, automated Interface Definition Language (IDL) to code generation, and automation of test data analysis. IDT has the expertise, strategies, processes and technology to provide an Automated Testing Solution which will accelerate test execution times, expand test coverage and test complexity, and reduce time and cost of software testing, thereby increasing the quality of the software and the speed with which it is delivered to the user. IDT developed ATRT under a U.S. Navy Small Business Innovation Research topic and has been awarded multiple tasks on SBIR Phase 3 contract. Examples of successes include: increased number of tactical targets tested in combat system from 1 to 120 within same test time; reduced test resource requirements by more than 3X for integration tests of submarine combat systems; expanded analysis of radar-beam-positioning data from 1 in one hour to 26,000 in a few seconds.

Lutron Electronics

Lutron Electronics, headquartered in Coopersburg, Pennsylvania, designs and manufactures energy-saving light controls, automated window treatments and appliance modules for both residential and commercial applications. Its innovative, intuitive products can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer, making them an eco-friendly addition to the home and workplace. Founded in 1961, Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately $1 billion in utility costs per year. Lutron manufactures more than 16,000 energy-saving products, sold in more than 100 countries around the world.

knowledge management services to ensure reliable information is available to only those who need it, where and when it is needed.

Naval Sea Systems Command (NAVSEA)

The Naval Sea Systems Command is comprised of command staff, headquarters directorates, affiliated Program Executive Offices (PEOs) and numerous field activities. Together, we engineer, build, buy and maintain ships, submarines and combat systems that meet the Fleet's current and future operational requirements.

Naval Sea Systems Command (NAVSEA) is the largest of the Navy's five system commands. With a fiscal year budget of nearly $30 billion, NAVSEA accounts for one quarter of the Navy's entire budget.

With a force of 74,000 civilian, military and contract support personnel, NAVSEA engineers, builds, buys and maintains the Navy's ships and submarines and their combat systems.

To accomplish this, NAVSEA manages 150 acquisition programs and manages foreign military sales cases that include billions of dollars in annual military sales to partner nations.

The origin of NAVSEA dates to 1794, when Commodore John Barry was charged to oversee the construction of a 44-gun frigate and ensure that all business "harmonized and conformed" to the public's interest.

Today, the NAVSEA organization has 33 activities in 16 states. NAVSEA strives to be an efficient provider of defense resources for the nation, and it plays an important role in the Navy Enterprise. As a Provider Command, it has the responsibility of directing resource sponsors into the proper mix of manpower and resources to properly equip the fleet.

NAVSEA has the further responsibility of establishing and enforcing technical authority in combat system design and operation. These technical standards use the organization's technical expertise to ensure systems are engineered effectively, and that they operate safely and reliably.

Perfect Sense

Founded in 2008, Perfect Sense is a visionary technology company that empowers the art of digital possibility through Brightspot®, a content management and distribution engine built for high-volume publishers, brand storytellers, and portfolio content creators.

Such leading corporations as Coca-Cola Company, Walmart, Univision, US News and World Report, Scripps Networks Interactive, Special Olympics, and many more are deploying Brightspot’s platform to materially change the way they do business online. Our partners benefit significantly from having increased flexibility as business requirements change, the ability to launch new sites and make updates more quickly, and fewer resource requirements to manage their digital initiatives. As Brightspot’s adoption rate increases, our partners continue to drive valuable enhancements that benefit everyone.

Our capabilities include product strategy and development, experience and visual design, multi-platform software development, content services, SEO analysis, and 24x7 hosting and operations. Our expertise enables us to deliver integrated web systems for our partners, including innovative websites, publishing platforms, online revenue programs, and metrics dashboards that drive brand awareness, expand capabilities, improve performance, and build relationships between publishers and users.

Perfect Sense offers competitive salary and benefits, including health and dental insurance, life insurance, 401k with employer match and 3 weeks vacation.

**Progeny Systems Corporation**

Since 1995, Progeny Systems' mission is to be a trusted provider of innovative, cost-effective technical solutions and quality products while maintaining positive relationships with our customers, vendors, and employees.

Progeny Systems is a privately-held, high-tech small business focusing on software and hardware system integration, computer-vision solutions, cutting-edge research and development, and manufacturing. We provide premium systems, services, and products for the Department of Defense, government agencies and commercial clients.

As a small business, Progeny Systems is a participant in the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. These programs complement Progeny's ability to leverage flexibility, rapid turnaround, customer responsiveness, and encourage an environment for experimental research.

Progeny maintains more than 14 offices nationwide that are strategically located to better serve our customers.

Progeny has provided highly-complex products/programs to the United States Government in collaboration with the following agencies, among others:
- Defense Advanced Research Projects Agency (DARPA)
- National Aeronautics & Space Administration (NASA)
- United States Air Force
- United States Army
- United States Navy

Progeny Systems offers a full array of computing expertise, laboratories, and engineering talent to support the design, development, testing and integration of leading-edge technology solutions. We have an outstanding portfolio of solutions for complex problems for the U.S. defense that include the toughest high-tech challenges. Today, our high-performance products can be

Salesforce

Salesforce, the Customer Success Platform and world's #1 Customer Relationship Management (CRM) platform, empowers companies to connect with their customers in a whole new way. The company was founded on three disruptive ideas: a new technology model in cloud computing, a pay-as-you-go business model, and a new integrated corporate philanthropy model. These founding principles have taken our company to great heights, including being named one of Forbes's "World's Most Innovative Company" seven years in a row and one of Fortune's "100 Best Companies to Work For" nine years in a row. We are the fastest growing of the top 10 enterprise software companies, and this level of growth equals incredible opportunities to grow a career at Salesforce. Together, with our whole Ohana (Hawaiian for "family") made up of our employees, customers, partners and communities, we are working to improve the state of the world.

Our cloud-based applications for sales, service, marketing and more are changing the way people work by making innovations such as robotics, AI and the Internet of Things, more accessible. This allows individuals to harness new technologies to entirely transform their companies, their careers, and hopefully, our world. Which, in turn helps create a future with greater opportunity and equality for all.

Our Salesforce Ohana is built on four core values that inspire us to work together every day toward improving the world.
- Trust: We communicate openly with our customers, and do what it takes to keep their data secure.
- Growth: We’re obsessed with our customers’ success and take pride in their achievements.
- Innovation: We pursue ideas that could change our company, our country — and maybe even the world.
- Equality: We respect and value employees from every background, and we thrive as a result.

Salesforce is committed to workforce development through a set of diverse programs dedicated to training and hiring for the jobs of tomorrow. These efforts, all of which stress equality for all, include university recruitment, computer science curriculum in K-12 schools, training for thousands of veterans and their spouses, and an interactive learning platform for technology skills.

Wells Fargo Capital Markets Technology

Company Overview
Wells Fargo & Company (NYSE: WFC) is a diversified, community-based financial services company with $2.0 trillion in assets. Wells Fargo’s vision is to satisfy our customers’ financial needs and help them succeed financially. Founded in 1852 and headquartered in San Francisco, Wells Fargo provides banking, investments, mortgage, and consumer and commercial finance through more than 8,300 locations, 13,000 ATMs, the internet (wellsfargo.com) and mobile banking, and has offices in 42 countries and territories to support customers who conduct business in the global economy. With approximately 263,000 team members, Wells Fargo serves one in three households in the United States. Wells Fargo & Company was ranked No. 25 on Fortune’s 2017 rankings of America’s largest corporations. News, insights and perspectives from Wells Fargo are also available at Wells Fargo Stories: https://stories.wf.com.

Team members support our focus on building strong customer relationships balanced with a strong risk mitigating and compliance-driven culture which firmly establishes those disciplines as critical to the success of our customers and company. They are accountable for execution of all applicable risk programs (Credit, Market, Financial Crimes, Operational, Regulatory Compliance), which includes effectively following and adhering to applicable Wells Fargo policies and procedures, appropriately fulfilling risk and compliance obligations, timely and effective escalation and remediation of issues, and making sound risk decisions. There is emphasis on proactive monitoring, governance, risk identification and escalation, as well as making sound risk decisions.
