1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

Earth’s most customer-centric company
When Amazon.com launched in 1995, it was with the mission “to be Earth’s most customer-centric company, where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.” This goal continues today, but Amazon’s customers are worldwide now, and have grown to include millions of Consumers, Sellers, Content Creators, and Developers & Enterprises. Each of these groups has different needs, and we always work to meet those needs, innovating new solutions to make things easier, faster, better, and more cost-effective.

Berkley Alternative Markets Tech
At Berkley Alternative Markets Tech, we simplify complex business problems. And, since we’re in the insurance industry, we have no shortage of complexities to keep us busy.

We started as a small group of technologists with a passion to make workers compensation insurance better. Today we work with a talented team of comp experts who run five different insurance brands.

But we’re not your average Technology shop. Our value proposition is our capacity to care deeply about the products we’re building and convert that passion into business results.

We’re in the business of debating ideas, learning from mistakes, and always asking why. We try to pick the right problems to solve and the best ways to solve them.

Our culture focuses on key personal attributes, including:

? Extreme ownership – Making decisions and pushing our products forward
? Creating relationships – Finding the power in building good relationships and consensus
? Leading business change – Staying engaged and delivering to completion while understanding customers’
? Asking why and saying no – Figuring out the right problem to solve next and gaining a full understanding
? Creating value and failing often – Learn, grow, repeat
? Energizing others – Leveraging boundless energy to bring passion and meaning to our work
As we grow our team, we’re looking for intelligent, passionate people who want to help us transform complication into simplicity.

Commercial insurance is too complex. Help us make it better.

Block.one

About Block.one LLC

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

About EOS.IO

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

**Deutsche Bank**

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

---

Currently offering

- Full-time positions
- Summer internships
Today's banking world is at the forefront of technological advances. At Deutsche Bank you'll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you'll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you're doing, you'll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you'll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

Progeny Systems Corporation

Since 1995, Progeny Systems' mission is to be a trusted provider of innovative, cost-effective technical solutions and quality products while maintaining positive relationships with our customers, vendors, and employees.

Progeny Systems is a privately-held, high-tech small business focusing on software and hardware system integration, computer-vision solutions, cutting-edge research and development, and manufacturing. We provide premium systems, services, and products for the Department of Defense, government agencies and commercial clients.

As a small business, Progeny Systems is a participant in the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. These programs complement Progeny's ability to leverage flexibility, rapid turnaround, customer responsiveness, and encourage an environment for experimental research.

Progeny maintains more than 14 offices nationwide that are strategically located to better serve our customers.

Progeny has provided highly-complex products/programs to the United States Government in collaboration with the following agencies, among others:
- Defense Advanced Research Projects Agency (DARPA)
- National Aeronautics & Space Administration (NASA)
- United States Air Force
- United States Army
- United States Navy

Progeny Systems offers a full array of computing expertise, laboratories, and engineering talent to support the design, development, testing and integration of leading-edge technology solutions. We have an outstanding portfolio of solutions for complex problems for the U.S. defense that include the toughest high-tech challenges. Today, our high-performance products can be found throughout the Naval fleet and commercial markets.

Progeny’s business solutions focus on:
Reinventing Geospatial®, Inc. (RGi®)

RGi is the leading Command, Control, Communications and Information (C3I) innovator and geospatial expert in National Security. We deliver an immediate impact for soldiers and analysts through an empowered team of critical thinkers who thrive on innovation.

When our team of thought leaders encounter a challenge, we look beyond the status quo. We roll up our sleeves and get things done through smart, adaptable strategies. At RGi, we believe agility in innovation is the key to facing tomorrow’s challenges, which is why we strategically invest in new research and development efforts to ensure our soldiers, analysts and customers achieve mission success.

Ventera Corporation

Ventera delivers innovative business and technology solutions to unique customer challenges, to help our clients achieve meaningful results. Ventera empowers the success of many of the largest government agencies, telecommunications companies, and financial services firms in the world. Our business begins and ends with a deep understanding of our customers and their unique challenges and opportunities, and our relentless commitment to customer success. Rather than just implementing systems, Ventera and our exceptional professionals leverage their deep technical, functional and domain knowledge to apply technology as a means to achieve our most important end goal: Helping customers achieve meaningful results.

Ventera recruits exceptional consultants who want to advance their career while delivering leading edge, innovative solutions for our customers. Outside of our normal projects, you’ll find our team engaged in different initiatives, such as contributing to our Technology Innovation Council, discussing the latest tech trends within our Communities of Practice, or planning our next hackathon, to name a few.

Vulnerability Research Labs, LLC

At Vulnerability Research Labs, we have spent more than a decade becoming a technical leader in cyber security. We became a technical leader in the field because we believe in our mission - to be at the forefront of cyber security and deliver unparalleled capabilities that solve our customer’s hardest problems. We offer the opportunity to work on diverse technologies with hard working developers in an interactive company with a flat organizational structure.

At VRL, we are forward thinking, focused, collaborative, and determined. We are risk takers, not afraid to fail in order to get to the best solution for our customers. We disagree, we back each other up, we are open about the state of the company, and we share company-provided breakfast and lunch on a weekly basis.

We are home to software engineers, system
administrators, QA specialists, technical writers, graphic artists, accountants, office managers, sales pros, and an HR Director who cares more about the people than the policies.

**Yext**

Grow your career at Yext.

Yext’s mission is to provide perfect answers everywhere. We put businesses in control of their facts online with brand-verified answers in search. So when you search in Google Maps for Taco Bell’s opening hours or in Uber for a Marriott hotel drop off address, you get the correct information from that business itself – powered by Yext on behalf of our clients big and small.

Yext has been named a Best Place to Work by Fortune and Great Place to Work®, as well as a Best Workplace for Women. We are headquartered in New York City with offices in Amsterdam, Berlin, Chicago, Dallas, Geneva, London, Miami, Milan, Paris, San Francisco, Shanghai, Tokyo and the Washington, D.C. area.
