Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 6,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations, and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

Amazon

Founded in 1994 and headquartered in Seattle, Washington, Amazon employs more than 100,000 worldwide. Their mission is “to be Earth’s most customer-centric company where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.”

Since 1995, Amazon has significantly expanded its product selection, international retail websites, and
worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Next Century Corporation

Next Century Corporation, which is 100% employee owned, was founded in response to the events of 9/11/2001. We are passionately committed to making a significant, tangible, positive difference in the security and well-being of our country and our allies. We pursue this bold and worthy mission through the innovative use and application of technology in ways that significantly enhance the ability of our customers to directly or indirectly:

* Save lives
* Protect our country and our allies
* Enhance America's competitiveness in the global marketplace

Toward that end, we are focused on the development of a new class of solutions that we refer to as Strategic Insight™ solutions. These solutions integrate situational awareness, at-a-glance analysis, decision support, collaboration, as well as other core capabilities, to provide information to decision makers in ways that are highly intuitive and actionable.

Next Century Corporation recruits world class technical talent and industry expertise in system concept development, rapid prototyping, software engineering,
systems integration, and project leadership. We pride ourselves on our proven ability to apply small, elite technical teams focused on the end user solving problems quickly and effectively.

Qualcomm

Qualcomm is creating breakthroughs in mobile technology that will help the future arrive faster. The technologies we create help connect people around the world, improve education, transform healthcare and enhance the lives of all who use it. Billions, maybe trillions of times a day...that’s how often people around the world touch something made better or even possible by Qualcomm. It could be the smartphone in your pocket, the tablet on your coffee table, that wireless modem in your briefcase... it could even be that navigation system in your car or that action camera strapped to your chest.

Qualcomm is a FORTUNE 500® company and a global leader in developing and delivering next-generation wireless technology. Headquartered in San Diego, California, Qualcomm partners with network operators, device and infrastructure manufacturers, application developers and content providers around the world to improve people’s lives through wireless communications. Through the corporate values of Innovation, Execution and Partnership, Qualcomm is spearheading the evolution and growth of 3G wireless with 7,000+ patents and patent applications for CDMA, WCDMA and related technologies.

We’ve been called dreamers, inventors, rebels, risk takers, pioneers and geeks. We embrace those labels because in many ways, they’re true. We dream big. We invent bigger. And most importantly, we often do what many thought was impossible.

So, if you can’t wait for the future to arrive, we can’t wait to talk to you.
Qualtrax

Our purpose is to help businesses and people making critical contributions to society who, as a result, face heavy compliance burdens. We help make these organizations successful by doing what we love: building great software and services to take them beyond compliance.

## Textron Systems

After more than 50 years, Textron Systems continues to bring ingenuity, agility and full-spectrum solutions to its growing roster of customers. Our businesses’ wide range of products and services fulfill the needs of defense, homeland security, aerospace, infrastructure protection, and other customers around the world.

Jump-start your career doing work that impacts the world around you. Textron Systems is part of Fortune 500 company Textron Inc., a multinational enterprise that spans the world with exciting products and services, as well as talented people.

At Textron Systems, we provide unparalleled opportunities to grow into highly capable, experienced professionals. One of the ways we do that is through our First Year Experience program. This program accelerates our employees’ development during their first year of employment through on-the-job and formal classroom training, as well as opportunities to build professional networks across the organization and with senior leaders. The First Year Experience program includes:

- Building Business Acumen, a series of opportunities to learn about the organization from its leaders
- New hire curriculum, including professional development and function-specific coursework
- Mid-year conference, including facilitated training sessions
- Engagement activities
- Networking programs

As a Textron Systems intern or co-op, you will do meaningful work alongside a team of experienced professionals. Our interns and co-ops are given the same level of responsibility as our early-career full-time hires. You will have visibility to senior leaders across the business, and benefit from performance and career conversations. It’s the same type of collaboration and feedback our employees experience every day, and central to our talent development culture. These serve as springboard opportunities for Textron Inc.’s broader Leadership Development Program or entry-level positions.

Textron Systems businesses are industry leading developers and integrators of unmanned systems, advanced marine craft, armored vehicles, intelligent battlefield and surveillance systems, geospatial...

TMA

Our Mission:

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.

We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to the customer is unassailable.

We’re at war with proprietary solutions that narrow our customers’ options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is an employee-owned company, headquartered in Chantilly, VA. Founded in 1993, TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and generous Total Rewards package which includes:

Competitive base pay
Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18% of this amount automatically becomes an employer contribution to your TMA-defined retirement plan. The remaining amount, or 30% of your base pay, can be used for medical expenses, paid time off, additional retirement contributions or additional taxable income.

TMA is committed to the welfare and success of our employees; we strive to ensure that our culture, work products, and partnerships represent our Core Values of: Innovation, Collaboration, Integrity, and Commitment.

Come grow with us. Learn more at http://tmamission.com/

**Visa**

Imagining working for one of the pioneers in the payment technology space. The kind of company that’s been setting the bar for the way people pay and get paid for
more than 50 years, and continues to innovate on a
global scale. Now imagine that company is less than
10,000 employees worldwide, small enough that you’ll
actually have an impact and do some amazing things.
Sounds pretty awesome. Well, that company exists and
it’s Visa.

Yep, Visa.

Imagine, in a single day, the diversity of transactions that
Visa manages – from gaming enthusiasts who buy virtual
goods to advance a level, to a small business merchant
launching their first ecommerce business to a large
consumer brand hitting their largest single-day sale. Now
multiply transactions and interactions like that by millions
on a global scale – that's Visa. It is a multi-billion dollar
market that has experienced year over year growth!

**Headquarters** 900 Metro Center Blvd Foster City, CA 94404

---

**Walmart Technology**

Wal-Mart has over 8,000 Wal-Mart stores and Sam’s Club
locations in 28 markets worldwide, serving more than
100 million customers annually. Around the world, we
save people money, so they can live better. We see
opportunities to help people live better, and you could
join this global movement – apply today!

**Headquarters** 10790 Parkridge Blvd Reston, VA 20191

**Wells Fargo Capital Markets Technology**

**Company Overview**

Wells Fargo & Company is a diversified financial services
company providing banking, insurance, investments,
mortgage, and consumer and commercial finance
through more than 8,700 stores and more than 12,500
ATMs, and the internet (wellsfargo.com) across North
America and internationally. We’re headquartered in San
Francisco, but are decentralized so every local Wells Fargo
store is a headquarters for satisfying all our customers’
financial needs and helping them succeed financially. One
in three households in America does business with Wells
Fargo. Wells Fargo has $1.7 trillion in assets and more
than 266,000 team members in more than 36 countries
across approximately 90 businesses. At the end of the
first quarter 2015, Wells Fargo ranked fourth in assets
