1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

Amazon
Founded in 1994 and headquartered in Seattle, Washington, Amazon employs more than 100,000 worldwide. Their mission is “to be Earth’s most customer-
Since 1995, Amazon has significantly expanded its product selection, international retail websites, and worldwide network of fulfillment and customer service centers. Today, Amazon offers everything from toys and video games to MP3 downloads and collectible items. The company has also launched the Kindle family, which has now grown to include Kindle Fire.

Amazon Web Services (AWS) provides Amazon's developer customers with access to in-the-cloud infrastructure services based on Amazon's own back-end technology platform, which developers can use to enable virtually any type of business. Examples of the services offered by Amazon Web Services are Amazon Elastic Compute Cloud (Amazon EC2), Amazon Simple Storage Service (Amazon S3), Amazon SimpleDB, Amazon Simple Queue Service (Amazon SQS), Amazon Flexible Payments Service (Amazon FPS), Amazon Mechanical Turk and Amazon CloudFront.

Amazon's evolution from Web site to e-commerce partner to development platform is driven by the spirit of innovation that is part of the company's DNA. The world's brightest technology minds come to Amazon to research and develop technology that improves the lives of shoppers and sellers around the world.

Earth's most customer-centric company

When Amazon.com launched in 1995, it was with the mission “to be Earth’s most customer-centric company, where customers can find and discover anything they might want to buy online, and endeavors to offer its customers the lowest possible prices.” This goal continues today, but Amazon’s customers are worldwide now, and have grown to include millions of Consumers, Sellers, Content Creators, and Developers & Enterprises. Each of these groups has different needs, and we always work to meet those needs, innovating new solutions to make things easier, faster, better, and more cost-effective.

**Block.one**

**About Block.one LLC**

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

**About EOS.IO**

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

Deutsche Bank Graduate Programme – Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you’ll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You’ll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you’ll work alongside, and learn from, exceptionally talented colleagues. It’s a combination that will equip you to make an early impact on what we do best – generating inventive, effective solutions for our clients.

Your role

Today’s banking world is at the forefront of technological advances. At Deutsche Bank you’ll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you’ll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.
Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you’re doing, you’ll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you’ll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

General Electric

GE drives the world forward by tackling its biggest challenges, bringing real progress and possibility to every corner of the planet—safely delivering people where they need to go; powering homes, schools, hospitals, and businesses; and offering more precise diagnostics and care when patients need it most.

After a century at the forefront of industrial manufacturing, GE is transforming its portfolio of businesses to continue that pioneering leadership in the new technological era.

Our people are global, diverse and dedicated, operating with the highest integrity and passion to fulfill GE’s mission and deliver for our customers.
Genworth helps millions of people around the world secure their financial lives, families and futures by delivering on our promises. Our dedicated Information Technology teams are critical to these promises—employing the technology necessary to deliver simplified, fast and cost-effective service solutions to both our customers and distribution partners. At Genworth, Information Technology is not just a department—each of our talented associates is core to the fulfillment of our vision and values. Genworth’s rotational IT Development Program (ITDP) consists of four six-month rotations and two intense IT Boot Camps. ITDPs have the opportunity to design complex business solutions by using agile methodology and project management skills coupled with the technical work needed to develop the solution. Assignments will typically focus on core IT processes in Application Development, Network, Client/Server, Database, Programming Languages, Web Development, Architecture, System Integration, and/or project management. Our 12 week IT internship is essentially one shorter rotation in the ITDP where you will work on one of our in-house IT teams building capabilities for the business.

HughesNet® is the #1 high-speed satellite Internet service in the marketplace, with well over one million HughesNet subscribers, and offerings to suit every budget. To date, Hughes has manufactured and shipped more than 6 million terminals to customers in over 100 countries, and has consistently maintained a global market share of over 50 percent. Its products employ global standards approved by the TIA, ETSI and ITU organizations, including IPoS/DVB-S2, RSM-A, and GMR-1.

Hughes owns and operates service businesses throughout the United States, Europe, India, and Brazil delivering continent-wide broadband satellite connectivity along with an ever growing range of fully managed solutions and applications to major enterprise customers in virtually every vertical sector, including many of the Fortune 1000. Its technology footprint covers the globe, exceeding 1 million broadband sites operating on more than 20 satellites, including three Hughes-on satellites and Hughes Ka-band payloads on satellites of other operators.

Hughes supplies a growing family of authorized service providers, government organizations, and businesses with advanced broadband systems and terminals including satellite Network Operations Centers (NOCs) and gateways; broadband satellite routers and modems; mobile satellite systems, handsets and high-speed IP data terminals.

Headquartered outside Washington, D.C., in Germantown, Maryland, USA, Hughes operates sales and support offices worldwide, and is a wholly owned subsidiary of EchoStar Corporation (NASDAQ: SATS), a premier global provider of satellite operations and digital TV solutions.

**Innovative Defense Technologies**

IDT is the industry leader in providing Automated Testing Solutions to the Federal Government for complex software systems with critical performance requirements. We specialize in providing solutions beginning with a strategy tailored to each customer’s specific needs then using our Automated Test and Re-Test (ATRT) technology to support automation throughout the entire lifecycle from software component testing, to system integration, to system testing and independent analysis of the results. IDT’s core competencies are software test automation,

automation strategies, software design and production, virtualization, automated Interface Definition Language (IDL) to code generation, and automation of test data analysis. IDT has the expertise, strategies, processes and technology to provide an Automated Testing Solution which will accelerate test execution times, expand test coverage and test complexity, and reduce time and cost of software testing, thereby increasing the quality of the software and the speed with which it is delivered to the user. IDT developed ATRT under a U.S. Navy Small Business Innovation Research topic and has been awarded multiple tasks on SBIR Phase 3 contract. Examples of successes include: increased number of tactical targets tested in combat system from 1 to 120 within same test time; reduced test resource requirements by more than 3X for integration tests of submarine combat systems; expanded analysis of radar-beam-positioning data from 1 in one hour to 26,000 in a few seconds.

**Naval Sea Systems Command (NAVSEA)**

The Naval Sea Systems Command is comprised of command staff, headquarters directorates, affiliated Program Executive Offices (PEOs) and numerous field activities. Together, we engineer, build, buy and maintain ships, submarines and combat systems that meet the Fleet's current and future operational requirements. Naval Sea Systems Command (NAVSEA) is the largest of the Navy's five system commands. With a fiscal year budget of nearly $30 billion, NAVSEA accounts for one quarter of the Navy's entire budget.

With a force of 74,000 civilian, military and contract support personnel, NAVSEA engineers, builds, buys and maintains the Navy's ships and submarines and their combat systems.

To accomplish this, NAVSEA manages 150 acquisition programs and manages foreign military sales cases that include billions of dollars in annual military sales to partner nations.

The origin of NAVSEA dates to 1794, when Commodore John Barry was charged to oversee the construction of a 44-gun frigate and ensure that all business "harmonized and conformed" to the public's interest.

Today, the NAVSEA organization has 33 activities in 16 states. NAVSEA strives to be an efficient provider of defense resources for the nation, and it plays an important role in the Navy Enterprise. As a Provider Command, it has the responsibility of directing resource sponsors into the proper mix of manpower and resources to properly equip the fleet.

NAVSEA has the further responsibility of establishing and enforcing technical authority in combat system design and operation. These technical standards use the organization's technical expertise to ensure systems are engineered effectively, and that they operate safely and reliably.

Progeny Systems Corporation

Since 1995, Progeny Systems' mission is to be a trusted provider of innovative, cost-effective technical solutions and quality products while maintaining positive relationships with our customers, vendors, and employees.

Progeny Systems is a privately-held, high-tech small business focusing on software and hardware system integration, computer-vision solutions, cutting-edge research and development, and manufacturing. We provide premium systems, services, and products for the Department of Defense, government agencies and commercial clients.

As a small business, Progeny Systems is a participant in the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. These programs complement Progeny's ability to leverage flexibility, rapid turnaround, customer responsiveness, and encourage an environment for experimental research.

Progeny maintains more than 14 offices nationwide that are strategically located to better serve our customers.

Progeny has provided highly-complex products/programs to the United States Government in collaboration with the following agencies, among others:
• Defense Advanced Research Projects Agency (DARPA)
• National Aeronautics & Space Administration (NASA)
• United States Air Force
• United States Army
• United States Navy

Progeny Systems offers a full array of computing expertise, laboratories, and engineering talent to support the design, development, testing and integration of leading-edge technology solutions. We have an outstanding portfolio of solutions for complex problems for the U.S. defense that include the toughest high-tech challenges. Today, our high-performance products can be found throughout the Naval fleet and commercial markets.
Progeny’s business solutions focus on:

**TMA**

**Our Mission:**

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.

We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to the customer is unassailable.

We’re at war with proprietary solutions that narrow our customers’ options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is headquartered in Chantilly, VA and was founded in 1993. TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and
generous Total Rewards package which includes:

Competitive base pay
Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18% of this amount automatically becomes an employer contribution to your TMA-defined retirement plan. The remaining amount, or 30% of your base pay, can be used for medical expenses, paid time off, additional retirement contributions or additional taxable income.

TMA is committed to the welfare and success of our employees; we strive to ensure that our culture, work products, and partnerships represent our Core Values of: Innovation, Collaboration, Integrity, and Commitment.

Come grow with us. Learn more at http://tmamission.com/

**Tridium**

Thank you for your interest in a career with Tridium. A career at Tridium offers exciting opportunities to become part of a team that is committed to excellence. As the pioneer of connectivity, communications, integration and interoperability technology, Tridium is the global leader in open platforms, application software frameworks, automation infrastructure technology, energy management and device-to-enterprise integration solutions.

Technology from Tridium increases the functionality and value of smart devices and systems and enables the intelligent convergence of devices, systems, and
networks. Our technology and applications have fundamentally changed the way devices and systems connect, integrate and interoperate with each other and the enterprise and enable collaboration and communication between the enterprise and edge assets.

Our technologies, the Niagara and Sedona Frameworks, are used in intelligent building control, facility management, industrial automation, medical equipment, physical security, and energy information systems, telecommunications, M2M and smart services.

In less than four years it is estimated that there will be over 22 billion devices connected to the Internet and our technologies are playing an instrumental part in driving this explosive growth.

To help us meet the demand, we are looking for people driven by an entrepreneurial spirit and a desire to contribute, be challenged and grow. Our people make Tridium a special company and are a key competitive advantage.

Tridium offers excellent benefits including paid vacation, medical and dental coverage, 401(k) and life insurance coverage. Currently, we are looking for people to fill the following key positions.

**Ventera Corporation**

Ventera delivers innovative business and technology solutions to unique customer challenges, to help our clients achieve meaningful results. Ventera empowers the success of many of the largest government agencies, telecommunications companies, and financial services firms in the world. Our business begins and ends with a deep understanding of our customers and their unique challenges and opportunities, and our relentless commitment to customer success. Rather than just implementing systems, Ventera and our exceptional professionals leverage their deep technical, functional and domain knowledge to apply technology as a means to achieve our most important end goal: Helping customers achieve meaningful results.

Ventera recruits exceptional consultants who want to advance their career while delivering leading edge, innovative solutions for our customers. Outside of our normal projects, you’ll find our team engaged in different initiatives, such as contributing to our Technology Innovation Council, discussing the latest tech trends within our Communities of Practice, or planning our next hackathon, to name a few.

At VRL, we are forward thinking, focused, collaborative, and determined. We are risk takers, not afraid to fail in order to get to the best solution for our customers. We disagree, we back each other up, we are open about the state of the company, and we share company-provided breakfast and lunch on a weekly basis.

We are home to software engineers, system administrators, QA specialists, technical writers, graphic artists, accountants, office managers, sales pros, and an HR manager who cares more about the people than the policies.

This company requires that its employees be **US citizens**.
Team members support our focus on building strong customer relationships balanced with a strong risk mitigating and compliance-driven culture which firmly establishes those disciplines as critical to the success of our customers and company. They are accountable for execution of all applicable risk programs (Credit, Market, Financial Crimes, Operational, Regulatory Compliance), which includes effectively following and adhering to applicable Wells Fargo policies and procedures, appropriately fulfilling risk and compliance obligations, timely and effective escalation and remediation of issues, and making sound risk decisions. There is emphasis on proactive monitoring, governance, risk identification and escalation, as well as making sound risk decisions commensurate with the business unit’s risk appetite and all risk and compliance program requirements.

Our vision: “We want to satisfy all our customers’ financial needs and help them succeed financially.”

Yext

Grow your career at Yext.

Yext’s mission is to provide perfect answers everywhere. We put businesses in control of their facts online with brand-verified answers in search. So when you search in Google Maps for Taco Bell’s opening hours or in Uber for a Marriott hotel drop off address, you get the correct information from that business itself – powered by Yext on behalf of our clients big and small.

Yext has been named a Best Place to Work by Fortune and Great Place to Work®, as well as a Best Workplace for Women. We are headquartered in New York City with offices in Amsterdam, Berlin, Chicago, Dallas, Geneva, London, Miami, Milan, Paris, San Francisco, Shanghai, Tokyo and the Washington, D.C. area.
