1901 Group

1901 Group provides IT services through the use of an integrated cloud-based platform that enables monitoring, management, and optimization of IT environments that span on-premise, co-location, and cloud computing environments. Our “as a service” model (XaaS) embeds all of the people, processes and technology necessary to deliver highly efficient IT services on a 24x7x365 basis.

We leverage continuous monitoring from a secure operations facility in Blacksburg, Virginia on Virginia Tech’s Corporate Research Center campus. Our business model provides our personnel with exciting technology and business career opportunities that balance high levels of productivity with a high quality of life. Our clients include enterprise organizations from the financial, higher education, commercial, U.S. federal, and U.S. state government markets. Connect with us!

Accenture Federal Services

Accenture Federal Services, a US company and wholly owned subsidiary of Accenture LLP, helps clients change how people work and live, for a safer, healthier, and more prosperous nation. We do work that matters at the heart of our nation’s top priorities. Our 8,500 people help clients accelerate their journey from idea to outcomes, by bringing together insights and innovations with our digital, technology, operations , and consulting services. Our delivery excellence and flexible, scalable, high-performing platforms help clients create value quickly for their customers and their mission.

Our four growth platforms—Accenture Strategy, Accenture Digital, Accenture Technology, Accenture Operations—are the innovation engines through which we build world-class skills and capabilities; develop knowledge capital; and create, acquire and manage key assets central to the development of integrated services and solutions for our clients.

Block.one

About Block.one LLC

Block.one LLC is a creator of Decentralized Autonomous Corporations (DACs), a concept introduced by CTO Daniel Larimer in 2014 that empowers open source communities to disrupt existing centralized business models. Currently we, along with others globally, are developing EOS.IO, a revolutionary open-source decentralized blockchain infrastructure that will be used worldwide as the basis for developing countless high-throughput blockchain applications. We are looking for extraordinary technology professionals to join the Block.one LLC team in our continuing quest to enhance, refine and scale EOS.IO for our rapidly expanding developer community.

About EOS.IO

Published by Block.one, EOS.IO is a blockchain protocol that enables horizontal scaling of decentralized applications, allowing developers to efficiently create high performance distributed applications. The EOS.IO software provides accounts, authentication, databases, and the scheduling of applications across multiple CPU cores and/or clusters. This allows for horizontal scalability, replaces user fees with an ownership model, and powers simple deployment of decentralized applications. Check out the EOS.IO GitHub repository to read our source code and, for more information, visit the resources section of the EOS.IO website.

Deutsche Bank

Deutsche Bank Graduate Programme - Group Technology

Group Technology pioneers technologies and re-engineers business processes to deliver innovative solutions and world-class client services. We develop, implement, maintain and protect business critical technology, and create the core systems that that process trades, assess risks and deliver data.

Your training

Joining us as a Developer, you'll learn how we work with front-office businesses, as well as external clients, to provide core operational services and IT systems expertise.

Your training starts with an invaluable induction that will give you broad business, technical and product knowledge. Our senior leadership will share their vision for Deutsche Bank with you. You'll then begin to deepen your expertise in IT, starting with a thorough grounding in our Development functions and how they fit together to deliver technology solutions for the Bank. Meanwhile, a schedule of networking events will help you start building vital business relationships.

After that, expect to benefit from some of the best technical and soft-skills training around. Fast-paced, interactive and ongoing, it will cover the technical skills you need as well as business skills & knowledge. At the same time, you'll work alongside, and learn from, exceptionally talented colleagues. It's a combination that will equip you to make an early impact on what we do best - generating inventive, effective solutions for our clients.

Your role

Today's banking world is at the forefront of technological

- Full-time positions
- Summer internships

advances. At Deutsche Bank you'll have the chance to apply your ideas to complex challenges and use your passion to drive change and push boundaries. And with sites across the world, we can offer you fast-growing roles outside the main financial centres too.

Joining us in Cary, North Carolina, you'll launch your career in a true business and research hub, frequently ranked one of the best places to live in the USA by Money Magazine.

Your day-to-day tasks will vary according to your precise role. Development focuses on more technical skills such as coding, testing and software design. But whatever you're doing, you'll be a key member of the team, sharing your ideas and shouldering real responsibility. Your learning curve will be steep. But you'll enjoy plenty of support from managers and mentors, as well as unparalleled international exposure.

Genworth

Genworth helps millions of people around the world secure their financial lives, families and futures by delivering on our promises. Our dedicated Information Technology teams are critical to these promises—employing the technology necessary to deliver simplified, fast and cost-effective service solutions to both our customers and distribution partners. At Genworth, Information Technology is not just a department—each of our talented associates is core to the fulfillment of our vision and values. Genworth’s rotational IT Development Program (ITDP) consists of four six-month rotations and two intense IT Boot Camps. ITDPs have the opportunity to design complex business solutions by using agile methodology and project management skills coupled with the technical work needed to develop the solution. Assignments will typically focus on core IT processes in Application Development, Network, Client/Server, Database, Programming Languages, Web Development, Architecture, System Integration, and/or project management. Our 12 week IT internship is essentially one shorter rotation in the ITDP where you will work on one of our in-house IT teams building capabilities for the business.

Optimal Satcom, Inc

Optimal Satcom Inc. is the leading provider of enterprise systems and services for the planning and management of satellite capacity, and satellite communications (SATCOM) network design and optimization. We specialize in systems that integrate all aspects of capacity management - capacity engineering, technical operations, customer support, billing, occasional use, etc. into a single system. Our systems are used to manage a significant portion of the world's commercial and military satellite capacity.

Our systems include both front-end components with web and desktop graphical user interfaces; as well as back-end components including databases, application servers, web-servers, and automation services. We use cutting edge technologies such as .NET C#, C++ and AJAX combined with sophisticated algorithms for management and visualization of large systems.

Our customers include satellite operators, VSAT service providers, media companies, government civilian and military programs, and non-governmental organizations (NGOs).

Perfect Sense

Founded in 2008, Perfect Sense is a visionary technology company that empowers the art of digital possibility through Brightspot® a content management and distribution engine built for high-volume publishers, brand storytellers, and portfolio content creators.

Such leading corporations as Coca-Cola Company, Walmart, Univision, US News and World Report, Scripps Networks Interactive, Special Olympics, and many more are deploying Brightspot's platform to materially change the way they do business online. Our partners benefit significantly from having increased flexibility as business requirements change, the ability to launch new sites and make updates more quickly, and fewer resource requirements to manage their digital initiatives. As Brightspot's adoption rate increases, our partners continue to drive valuable enhancements that benefit everyone.

Our capabilities include product strategy and development, experience and visual design, multi-platform software development, content services, SEO analysis, and 24x7 hosting and operations. Our expertise enables us to deliver integrated web systems for our partners, including innovative websites, publishing platforms, online revenue programs, and metrics dashboards that drive brand awareness, expand capabilities, improve performance, and build relationships between publishers and users.

Perfect Sense offers competitive salary and benefits, including health and dental insurance, life insurance, 401k with employer match and 3 weeks vacation.

Progeny Systems Corporation

Since 1995, Progeny Systems' mission is to be a trusted provider of innovative, cost-effective technical solutions and quality products while maintaining positive relationships with our customers, vendors, and employees.

Progeny Systems is a privately-held, high-tech small business focusing on software and hardware system integration, computer-vision solutions, cutting-edge research and development, and manufacturing. We provide premium systems, services, and products for the Department of Defense, government agencies and commercial clients.

As a small business, Progeny Systems is a participant in the Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. These programs complement Progeny's ability to leverage flexibility, rapid turnaround, customer responsiveness, and encourage an environment for experimental research.

Progeny maintains more than 14 offices nationwide that are strategically located to better serve our customers.

Progeny has provided highly-complex products/programs to the United States Government in collaboration with the following agencies, among others:

- Defense Advanced Research Projects Agency (DARPA)
- National Aeronautics & Space Administration (NASA)
- United States Air Force
- United States Army
- United States Navy

Progeny Systems offers a full array of computing expertise, laboratories, and engineering talent to support

touch something made better or even possible by Qualcomm. It could be the smartphone in your pocket, the tablet on your coffee table, that wireless modem in your briefcase... it could even be that navigation system in your car or that action camera strapped to your chest.

Qualcomm is a FORTUNE 500® company and a global leader in developing and delivering next-generation wireless technology. Headquartered in San Diego, California, Qualcomm partners with network operators, device and infrastructure manufacturers, application developers and content providers around the world to improve people's lives through wireless communications. Through the corporate values of Innovation, Execution and Partnership, Qualcomm is spearheading the evolution and growth of 3G wireless with 7,000+ patents and patent applications for CDMA, WCDMA and related technologies.

We've been called dreamers, inventors, rebels, risk takers, pioneers and geeks. We embrace those labels because in many ways, they're true. We dream big. We invent bigger. And most importantly, we often do what many thought was impossible. So, if you can't wait for the future to arrive, we can't wait to talk to you.

TMA

Our Mission:

We live in a world of infinite problems. We provide rapid supportable solutions engineered to meet mission objectives and proceed to the next challenge.

We collaborate with our customers. Our innovative engineers hunt for the best mission solution without requiring ownership of the answer. Our commitment to the customer is unassailable.

We're at war with proprietary solutions that narrow our customers' options and stunt progress. Our solutions ensure the community can leverage, extend, and integrate next generation capabilities delivering sustained relevancy.

We believe in a work hard/play hard culture. Our empowered employees solve complex problems every day wearing blue jeans and polos, because the only thing that matters is getting the right answer for the mission.

We are making the world a better place.

TMA is headquartered in Chantilly, VA and was founded in 1993. TMA is a leading services and solutions provider to the Department of Defense and the Intelligence Community.

Our capabilities include: National Tactical Integration, Mission Building and Analysis, Digital Signal Processing, System Integration, Network Engineering, Big Data Analytics, Secure Cloud, and Edge Computing.

Specific areas of expertise include: Software Development, DSP & Exploitation, Network Engineering, and Mission Critical Support Operations.

Joining the TMA team affords you access to a robust and generous Total Rewards package which includes:

Competitive base pay

Individual Benefits Account (IBA) which includes: A 48% contribution of your monthly base salary to your IBA. 18%
